

# DP-080: Querying Data with Microsoft Transact-SQL Change Log

October 2023

## Purpose

This document highlights the significant changes to the DP-080T00: Querying Data with Microsoft Transact-SQL course from the previous release. This document is for Microsoft Certified Trainers and Instructors to use before they deliver the class or during preparation for teaching the class.

This is not an error log or a supplement to the Course Materials. This document just provides additional context so that you can understand the major changes to the course content. Most of the course materials have been updated to fix typos, broken links, and formatting. So, we recommend you always download the latest copies.

✓ Please read the Trainer Prep Guide which provides the overall strategy for implementing this training.

# September 2023 – Updated templates
